

January 7, 2008

To Whom It May Concern,

I understand that Automotive Representatives Europe is in the process of reviewing potential lines and would like to take this opportunity to share our experience and recommendation.

Automotive Representatives Europe, "ARE" has been JKL's appointed Representative since 2001. JKL is a supplier of lighting products in which the primary market focus has been automotive but also includes other niche markets.

JKL Components is very pleased with the service that we have received and consider ARE to be a very important extension of our sales force. ARE provides an excellent service in terms of seeking out new opportunities, relationship building and project management. The service received has always proved to be extremely professional and thorough. Since appointing ARE, JKL's European business has grown substantially.

I recommend ARE for representation of any commodity that they deem to be fitting.

If I can be of assistance in answering any questions that you may have, please feel free to contact me.

Sincerely,

Sherry Carpenter  
Operations Manager  
JKL Components Corporation
